

---

## PROTECT YOUR INVESTMENT

---

- Safeguard liners and calibration tube against:
  - UV rays
  - Abrasions
  - Punctures
  - Daily Wear and Tear
- Safe & simple storage with a minimal footprint.

---

## PULL MORE PROFIT

---

- Save on labor costs by enabling one technician to complete the entire process.
- No more awkward handling of loose rolls of liner!
- The easiest way to handle, store, and move liner!
- Single technician can pull, measure, and cut liners with ease.

---

## ACCESS TO DATA

---

- QR Code data access
  - SDS
  - Resin Consumption & Calculator
  - Install Manuals
- Track material usage by job.
- There is no better way to protect, store, and pull your liner!

---

Protect & Pull saves you time, protects your material, and simplifies storage, transportation, and preparation, allowing you to focus on what really matters: getting the job done right and servicing your customer.
